SUMMARY

Computer Science student specializing in Information Systems with hands-on learning in front-end and full-stack development, data analysis, and artificial intelligence. Skilled in Python, JavaScript, HTML, CSS, R, and data visualization, with practical training through Algoriza, ITI, and ICBC. Seeking an internship or junior opportunity in Software Development, Data Analysis, or AI.

EDUCATION

Helwan University – Faculty of Computers & Artificial Intelligence | Information Systems Department | 2023 – Present

TECHNICAL SKILLS

Programming: Python, C, JavaScript, R, SQL **Web:** HTML5, CSS3, Responsive Design, Front-End Development
Data & AI: Data Analysis, Data Visualization, Machine Learning, Data Structures, Algorithms **Databases:** MongoDB
Tools: Tableau, Microsoft Excel, Git, VS Code **Other:** Full-Stack Development Fundamentals

EXPERIENCE & TRAINING

Algoriza — Full-Stack Web Development Trainee

- Developed web applications using front-end and back-end technologies; practiced responsive interfaces and application fundamentals.

Information Technology Institute (ITI) — Front-End & Full-Stack Development Trainee

- Built responsive web interfaces using HTML, CSS, and JavaScript; practiced Git and software development workflows.

ICBC — Artificial Intelligence Track Trainee

- Studied fundamental AI and machine-learning concepts and applied them through practical exercises and projects.

PROJECTS

RoadRisk | R, Python

- Analyzed traffic-incident data to identify accident patterns and risk factors; performed preprocessing, exploratory analysis, visualization, and predictive modeling.

Flaming Insights | Python, Tableau

- Explored wildfire records for geographic and temporal trends, cleaned and analyzed data with Python, and created Tableau visualizations.

COURSES & LANGUAGES

Courses: Networking – DARS Network; Artificial Intelligence – DARS AI Machine
Languages: Arabic (Native), English (B1)
